CONSENT FOR TELEHEALTH CONSULTATION

- 1 I understand that my health care provider wishes me to engage in a tele-health consultation.
- 2 My health care provider explained to me how the video conferencing technology that will be used to affect such a consultation will not be the same as a direct client/health care provider visit, due to the fact that I will not be in the same room as my provider.
- 3 I understand that a tele-health consultation has potential benefits including easier access to care and the convenience of meeting from a location of my choosing.
- 4 I understand there are potential risks to this technology, including interruptions, unauthorized access, and technical difficulties. I understand that my health care provider or I can discontinue the tele-health consult/visit if it is felt that the videoconferencing connections are not adequate for the situation.
- 5 I have had a direct conversation with my provider, during which I had the opportunity to ask questions in regard to this procedure. My questions have been answered and the risks, benefits and any practical alternatives have been discussed with me in a language in which I understand.
